OBJECTIVE

To apply my knowledge and skills in Information Technology in a professional remote work environment where I can contribute to real-world projects and provide effective technical support. I aim to utilize my experience in Web and Mobile Application Development, problem-solving, and other IT-related tasks to help organizations achieve their goals. I am committed to continuous learning, improving my technical expertise, and delivering reliable, high-quality work while building a successful career in the IT industry.

SUMMARY OF QUALIFICATIONS

Working knowledge of Programming Languages (C++, C#, Dart, and SQL), web development (HTML, JavaScript, CSS, PHP, Bootstrap, Tailwind CSS, React.js, Vue.js, Node.js and Laravel), mobile development (Ionic and Flutter) and database management using MariaDB;

Proficient on securing LAN networks using technologies such as VLANs, RIP, OSPF, subnetting, and MAC filtering;

Solid understanding of DHCP, DNS, and IP addressing, with the ability to configure basic network setups.

Knowledge in Microsoft Office applications, including Microsoft Excel (data organization, formulas, and basic analysis), Microsoft Word (technical and professional document preparation), and Microsoft PowerPoint (effective presentation design).

Experienced in web design mockups and UI/UX prototyping using Figma and Canva, with the ability to create visually appealing layouts and design frameworks for web and mobile applications.

PROFILE
